The minutes of the previous meeting were approved as written. Vouchers #29424 through 29455 were approved for payment.

Mr. W. A. Stewart Wright, County Planner, presented proposed amendments to subdivision regulations for Caroline County to the Commissioners for approval. A public hearing was held on 8 May, 1974 for the amendments. The changes were approved unanimously.

The County Planner discussed and presented for approval the 1974-75 update of the Comprehensive Water and Sewerage Plan. It was approved by the Commissioners and Mr. Wright was directed to file it with the Department of Health and Mental Hygiene, Department of Water and Sewerage.

Mr. George Dutton, presented a personal opinion concerning the 4-H and Youth Park. Mr. Dutton explained that the amount of money spent by the Commissioners, both from Revenue Sharing and Open Space Funds, exceeded the needs of the comparatively few people who use the park. President Andrew explained that the Park is for the use of the general public and not limited to 4-H and Youth alone. Furthermore, Mr. Andrew stated that the bulk of employment in Caroline County stems from agricultural sources and that the money expended on a 4-H Park is well within prudent spending.

Delegate John R. Hargreaves, Mr. Bill Benton, Assistant Secretary of Social Services; Dr. Richard Bateman, Division of Social Services Management; Mr. Ray Jenkinson, Office of Child Development; and Mr. Joe Mierczak, Office of Management and Audit Analysis discussed the audit of the Federalsburg Day Care Center. Mr. Benton made a number of recommendations for eliminating some of the costs and improving use of the Center, thereby increasing income. Specifically, the Community League should increase public relations to fill the Center both with daycare activities and other revenue producing activities within the League. Mr. Hargreaves stated the Center is a valuable community resource that can be self-sufficient and cooperation must be developed between the Center and State and Local Social Services Departments.

The Commissioners finalized their budget studies and adopted a 1974-75 County Budget in the amount of \$3,592,874.01, and increase over the previous year's budget of more than \$500,000.00, while reducing the tax rate from \$2.90 to \$2.75. While approving the budget, the Commissioners unanimously agreed to provide construction money for a dike to contain river sludge, from whatever excesses there may be at the end of this fiscal year. Mr. Cartes said that he would prepare a letter to Delegate Hargreaves stating that it should be the responsibility of the State to construct the dike since the waterway is owned and governed by the State.

There being no further business, the meeting was adjourned.

May 14, 1974

Commissioners of Caroline County
Denton, Md. 21629

Gentlemen:

Will you please furnish us with an authorization to collect the 3% penalty on all tax bills delinquent as of January 1.

Our office has been questioned about this several times and we can find no law to justify the collection.

We would like to have this by May 28th, 1974, otherwise we will eliminate this from our Tax Bill beginning with the current fiscal year July 1, 1974.

Very truly yours,

William A. Cole

The spot selected for deposit is on the south-east corner of the Court House Green, opposite and equidistant from the flagpole as the American Legion marker. The depth is to four feet from the surface to the bottom of the hole.

Mr. Bell asked Mr. Cartes to investigate sources of State funds available for trash collection at all public parks, boat ramps, marinas and other recreational areas.

Mr. George Dutton presented questions pertaining to certain approved expenditures for clarification.

Following lunch, the Commissioners held a public hearing on the tax ditch viewer's report on the Collins Road Public Drainage Association. Mr. Darling read a list of persons benefiting by the construction, the amounts of personal cost and then invited each property owner to voice their personal opinion, either for or against. Considering the number of persons against the construction plan in its present form, the Commissioners directed the report be returned to the viewers for further examination.

Mr. Roy Tolbert, Director of the DELMARVA Advisory Council along with members of his staff, met with the Commissioners to discuss the objectives of the Council.

Miss Terry Woods explained the problems of assessing and collecting the Admissions and Amusement tax presently levied by the county. This tax must be collected for all functions within the County, but not in incorporated areas where there is music or entertainment available on the premises. Considering this, the Commissioners unanimously agreed to recind the tax as of the 1st day of July, 1974.

Mr. John Mills, Vice President of the Maryland National Bank of Federalsburg asked the Commissioners to approve and sign two checks; one in the amount of \$256,430.70 to J. Roland Dashiell and Sons, Inc. for construction of the SOLO Cup Company plant and the second in the amount of \$26,557.06 to SOLO for overpayment.

Members of the Caroline County Nursing Home Executive Committee headed by Mr. John Saulsbury, presented the Home's budget for the coming year to the Commissioners. Following examination of the budget, the Commissioners agreed to provide assistance in the amount of \$30,000.00. The need for assistance stems from the cost of labor. Labor at the home now requires more than two-thirds of the total income.

Mr. Richard MacMullan of the Department of Agriculture with Mr. James M. Voss and Mr. Robert Rouse met with the Board and made a

formal request for authority to offer help in the form of emergency loans to those farmers whose crops were damaged by the recent hail storm. Local authority is necessary because the damage is limited and not County-wide. The Commissioners feel there is a need for emergency loans and unanimously agreed to the request. A letter connoting this action of the Board is directed to the State Director of F.H.A. at Newark, Delaware.

Mr. Richard P. Vasquez met with the Commissioners to present his company and its plan for a tax sheltered savings plan for governmental employees. Mr. Vasquez represents "Deferred Compensation Corporation of America." The object of the deferred compensation is to let the employees shift part of their earnings out of their present income tax picture, to be sent ahead for payment in the future, when it is possible for them to be in a lower income tax bracket. The employees' money is invested and sheltered from current taxation on both principal and earnings. It is a voluntary program.

The Commissioners took the matter under their own advisement for a later decision.

Mr. William A. Cole met with the Board and its Attorney relative to the collection of the Mobile Home Park Tax Resolution dated March 28, 1972. Mr. Cole presented a letter for the Board's information and advisement, expressing his views on the possibility of collecting according to the resolution as it now reads.

The Commissioners unanimously agreed to the concept of a County Fair and further agreed to establish a 5 member County Fair Board within the next few weeks.

The Admissions and Amusement Tax Division of the State of Maryland recommended that Caroline County reduce the present tax from 4½% to ½% beginning July 1, 1974 instead of abolishing it entirely which the County Commissioners did in their meeting on May 29, 1974. The Commissioners unanimously opposed any rerouting of traffic to the shore by constructing an alternate route through Caroline County.

The Commissioners approved a bill from General Services Administration for the rent of offices in the Federal Building in Denton now occupied by the County Extension Service from the University of Maryland. January 6, 1975

Mr. A. Curtis Andrew, President
Caroline County Commissioners
Denton, Maryland 21629

Dear Mr. Andrew:

This is a report of Citizens Committee designated to serve without compensation by the Caroline County Commissioners to screen applications for Caroline County Administrator, and recommend without bias or partisan political considerations, three to five qualified candidates for final consideration of the Commissioners.

The Citizens Committee was composed of John W. Asher, Jr. (elected Chairman by other committee members), Denton; G. B. Hastings, Federalsburg; Marsh H. Myers, Ridgely; E. Theodore Orme, Denton; and Thomas R. Shipley, Bridgetown.

The Citizens Committee screened 44 applications and selected for interview those who appeared to have related training and experience. to avoid duplication of travel on the part of the candidates, the County Commissioners accepted the Citizens Committee's invitation to join its members for interview of promising candidates.

General consensus of above group was that Edwin George Richards appeared to be the best qualified candidate for the position, although his salary request seemed high. Mrs. Richards is a native of Queen Anne's County and Mr. Richards earned a B.A. degree in Government from University of Maryland, M.A. in Urban Affairs from University of Delaware and has completed academic work for Ph.D. in Urban Affairs at University of Delaware. For the past four years he has worked for the New Castle County (Delaware) Housing Authority and now lives in Newark, Delaware. His references are excellent. He is willing to accept less salary than he could earn elsewhere in order "to establish roots on the Eastern Shore".

You asked the Committee Chairman and Mr. E. Theodore Orme to talk with Mr. Richards further to see if he would accept the job at less salary. He agreed to accept comparable salary scale to like job in Queen Anne's County, which is patterned after Maryland State wage grade and salary of E-18, i.e. \$16,612.00 to \$21,823.00 annually over a six-year period. Also, at your request Mr. Orme and I had a credit check made and further investigated personal and professional references, which were excellent. You, in turn, have invited both Mr. and Mrs. Richards to visit with the Commissioners and Citizens Committee Members at 2:00 P.M., Monday, January 6, 1975.

Mr. Richards is available to report February 3, 1975, and it is the consensus of the Citizens Committee that he be hired promptly after today's interview, assuming it will be favorable, of course.

It is gratifying to know that the Caroline County Commissioners are interested in securing the best qualified candidate for the important position of County Administrator and, I recommend you make this report a part of your minutes for publication in County papers so that all our citizens will know how the County Administrator was selected. I also recommend a letter be sent to each of the applicants, thanking them for applying and advising name of successful candidate. All applications are enclosed in alphabetical order.

Very truly yours,

John W. Asher, Jr.
Chairman, Citizens Committee

Mr. Blazjak requested the retirement program to go into effect February 1, 1975, and the cost to the County would be approximately \$14,000.00 for the five remaining months of the fiscal year. Under the Maryland State Employee's Retirement System, the employees contribute 5%. The amount of accrued liability payable by the County is \$299,535.00 over a 30-year period. The annual accrued liability contribution is \$19,485. The Commissioners did not make a decision, but agreed to contact Mr. Blazjak before February 1st.

Mr. Frederick H. Schmick and Mr. Harry H. Rieck, Jr. met with the Commissioners in opposition to a County Landfill on Backlanding Road. Their reasons for opposing were:

1. Opposed to having their land cluttered with tree limbs, plastic and paper refuse, glass bottles, tin cans, etc.
2. Backlanding Road is located right on the Dorchester County border. For convenience of the citizens, a site located further from the border and accessible by several approach roads makes for fuel savings and less traffic congestion.
3. There is only one road leading to the Backlanding site. All traffic must travel through Preston and back again.

Mr. Schmick and Mr. Rieck recommend consideration of the Gallagher property be given top priority. The Commissioners have not made a decision on the matter.

The minutes of the regular meeting on July 8, 1975, were approved and adopted. Vouchers #31336 - 31364 were approved for payment; payroll checks #8407 - 8485 were approved for payment.

Edwin Richards, County Administrator proposed the following resolution with regards to a request from Mr. Ernest Gerardi on behalf of the Caroline Developmental Center:

A sum not to exceed \$10,000.00 should be appropriated from the Contingency fund for the purpose of guaranteeing a note secured by the Denton National Bank from the Caroline Developmental Center. These funds shall be used only in the event of a default on the note by the Developmental Center.

A motion was made by Mr. Bell, seconded by Miss Collison, and unanimously carried to adopt the above resolution. Mr. Richards stated that these funds would remain in the County bank account. They would be paid out only to the bank and then only if the bank foreclosed on the note. If this were to happen, the County could then take legal action against the Developmental Center and possibly the State to get its money back.

WHEREAS, the leaders of the women's movement, battling those who still embrace an outdated concept of the role of women in National and International life, have organized groups to accelerate the drive toward full and equal rights and will not yield until these rights are won, in fact as well as in law; and

WHEREAS, in recognition of the great gains made by women and their ever increasing influence on the destiny of the world and nation, the United States General Assembly and the President of the United States have designated 1975 as INTERNATIONAL WOMEN'S YEAR; and

HUNTING AND FISHING DAY

BECAUSE of the outstanding contributions that America's hunters and fishermen have made to conservation, recreation, and the economy, they are deserving of special recognition.

SINCE the turn of the century, hunters, and anglers have been the leaders in nearly all major conservation programs. These sportsmen-conservationists are responsible for the founding of State fish and game departments in all 50 states. They asked that they, themselves, be required to buy licenses and that the money collected be used to support State Conservation agencies. In the last 50 years alone, these sportsmen have provided \$2.5 Billion for conservation programs.

HUNTERS and fishermen asked for the establishment of regulated seasons and bag limits so that sportsmen could harvest the annual crop of game and fish without damage to the basic breeding population. The result has been that there are now more deer, elk, antelope, and wild turkey in the United States than there were 50 years ago. Further, sportsmen's programs have benefited numerous species of non-game fish and wildlife through habitat development.

HUNTERS and fishermen, unique in all America, asked that their fishing and hunting equipment be taxed and that the money be used for land acquisition, research and habitat management for fish and wildlife for the enjoyment of all Americans.

THROUGH their publications and organizations---such as the National Wildlife Federation, Ducks Unlimited, Izaak Walton league of America and many others---hunters and Fishermen have led the nation in the battle for a better environment and the wise use of our natural resources.

THEREFORE, I A. Curtis Andrew, President of the County Commissioners of Caroline County, do hereby proclaim Saturday, September 27, 1975, as Caroline County Hunting and Fishing Day and that this day be an annual observance the fourth Saturday of each September. I urge all of our citizens to join with sportsmen-conservationists in a rededication to the wise use of our natural resources and their proper management for the benefit of future generations. Further, I urge all citizens to take part in Hunting and Fishing Day activities on September 27, to learn more about conservation and outdoor skills.

REPORT OF CAROLINE COUNTY ROADS ADVISORY COMMITTEE

In response to a series of recent citizen requests for further improvement of certain county roads, the Commissioners of Caroline County have voted to implement a county road improvement program. To assist in the development of such a program, the Commissioners named in September, 1975 a citizens committee to review all facets of the existing county roads system and to make specific recommendations concerning the expansion of an improvement program.

Members of the Advisory Committee included:

- | | |
|------------------------------------|----------------------------------|
| 1. Laverne Bullock, Federalsburg | 8. Oren Lewis, Greensboro |
| 2. Paul Croll, Harmony | 9. Edwin Love, Denton |
| 3. Carlton Dukes, Jr., Preston | 10. Robert Maloney, Williston |

| 6. Charles Hammer, Greensboro | 13. Francis Turpin, Federalsburg |
| 7. Lawrence Hignutt, Henderson | 14. James Voss, Denton, Chairman |
| 15. Winfield Webster, Federalsburg | |

The committee met weekly for ten consecutive Monday nights, gathering information directly from the County Roads Superintendent, Joseph Tinley; State Highway Administration Engineers, James Wright and Henry Burger; State Dept. Planning Specialist, James Gatto; Delegate John Hargreaves; County Planner, Stewart Wright, Jr., County Attorney, Edgar Brown; County Administrator, Edwin Richards; and County Commissioners, Curtis Andrew, Earl Bell and Rachel Collison. Equally important to the contributions received from the above listed individuals were the statements made by citizens who appeared and testified at a public hearing conducted by the Advisory Committee on October 13. Statements or comments made at the hearing by George Clendaniel, Norman Cohee, Horace Davis, Everett Gamber, Fred Gleockler, Jr., Bruce Hubbard, Diana Hubbard, Peggy Hubbard, Jerry Meredith, Irene Mullin, Mary Turkington and Thomas Turkington are reflected in the recommendations of this report. Members of the Advisory Committee also appreciate the many relevant thoughts and opinions expressed to each of us individually during the course of our work.

As a result of our study, the following problems in the operations of the county roads system are of serious enough nature to be included in this report along with recommendations for their solution.

1. Unimproved roads in the county system.

With approximately 160 miles of unimproved roads in the 500 mile county system, complaints arise during the inclement winter months from those citizens who must regularly use these dirt roads. In recent years the mileage of dirt roads annually upgraded to hard surface has fallen from about 15 miles per year to about 6 per year. The principal reason for this reduction has been the rapidly rising costs of road building materials and labor, accompanied by a very modest increase in State and Federal highway tax receipts.

Historically, the cost of construction and maintenance of the Caroline County roads system has been paid for by highway user fees. These gasoline tax and vehicle registrations have been collected by the State of Maryland and distributed to the County through a locally favorable formula based on the number of vehicles registered in the County and the mileage of roads in the county system. With recent substantially higher gasoline prices and the trend toward smaller automobiles, high fuel sales are not increasing as in previous years. The present fixed tax rate on gasoline, therefore, fails to provide an increase in the funds that will be required to expand the county roads improvement program.

In order to finance the proposed long-range improvement program, several alternatives were considered. A proposal to increase the extent of road construction through the sale of state revenue bonds was rejected by the Committee. The members recognized that such a sale would provide immediate funds for construction. However, repayment over a 15-year period is required from the same gasoline tax funds that already appear insufficient for an on-going road improvement program. The bond approach in the long run produced no new revenues for county road construction and would ultimately cost the county \$1.65 in user tax receipts for every \$1.00 received from a bond sale.

During the last ten years the County Commissioners have budgeted 6% of the county real estate taxes collected within the incorporated towns, for return to these same towns for road and street maintenance. The committee recognizes that a similar budgeting of a portion of the real estate taxes collected from beyond the incorporated towns would generate approximately \$100,000 each year for the county roads system and would eliminate an apparent inequity in the use of county tax revenues.

Strongly endorsing "user pays" and "pay-as-you-go" concepts, the committee supports a change in the state gasoline tax structure that will permit the tax to vary in relationship to the cost of fuel. This is necessary since the cost of building and maintaining roads is so directly affected by the price of oil and oil products needed in road construction. Our present state gasoline tax of \$.07 per gallon, regardless of the price of fuel, guarantees that the extent of road construction and maintenance will decrease as the price of fuel rises. The county has experienced this inequity in the last two years as road construction costs have risen 50% while fuel tax revenues have increased very little. The Committee also supports a statewide increase of \$10.00 in vehicle registration fees for full return to each subdivision. This would generate as much as \$150,000 per year for Caroline County.

2. Road Improvement Priorities

With 160 miles of dirt roads in the county system and an approximately \$45,000 per mile cost for improvement, it is obvious that a long-range plan must be developed for selection and scheduling roads to be improved. It is unreasonable to place the burden of design, acquisition of rights-of-way and construction on the Roads Superintendent without also providing him a well prepared long-range plan of action. Such planning should be started immediately and should involve the County Planner, Roads Superintendent, no more than three interested citizens, plus certain outside

professional consultation and engineering support as these five might consider necessary.

In developing a plan for review and approval by the County Commissioners, priority should be placed on the prompt improvement of some 32 miles of dirt roads that qualify for Federal Aid System Funds. The continued pressure at the national level to redirect these highway trust funds away from local road improvement and toward urban mass transit cannot be ignored. Local initiative should be directed toward preventing this diversion of Federal highway fuel taxes to non-highway uses. The threat of the loss of this source of road building funds to the County makes their immediate use imperative.

The next most important factor to consider in developing road priorities is to determine those segments which have the greatest traffic and increased traffic potential in the next five to ten years. Other factors such as mail, school bus, and truck delivery routes should be considered, but are of far less significance in developing a plan. A goal of ten miles of new road construction per year is not unreasonable for the next several years.

3. Right-of-way Acquisition

One of the principal obstacles to carrying out a well defined road improvement plan in the county has been the lack of a consistent procedure in securing the necessary increased rights-of-way for widening or relocating roads. Several heavily traveled road segments have been passed over when a single property owner has been unwilling to assign the required right-of-way increase. The Committee recommends in such cases that the county government exercise its power of eminent domain to secure necessary rights-of-way when no less than two-thirds of front footage right-of-way along the segment has been acquired through the presently used procedure.

Since the principal users of the remaining unimproved roads are those who own property along the roads, we fully endorse the long standing county policy of offering no financial compensation for increased rights-of-way on straight sections or curved sections requiring no relocation. However, if a curve relocated for safety factors takes more than one-half acre of property, the owners should be compensated at current fair market value for the land taken.

Following a great deal of study and discussion, the Committee has concluded that the minimum right-of-way for improved roads should continue to be 40 feet as specified in the design standards incorporated in Resolution No. 35 approved by the County Commissioners in September, 1966. This right-of-way, coupled with a minimum 20 foot hard surface, is now needed in all cases to provide for safe and efficient movement of cars, trucks and farm equipment. Deviations from these and other standards listed in Resolution No. 35 should not be permitted. Although these standards appear more costly initially, evidence indicates that in the long term, lower maintenance costs more than offset the high construction costs.

4. New Sub-division Roads

In recent years the County has experienced a dramatic increase in sub-division activity. There are currently 49 sub-division plans on file with the county government. Many of these plans are not covered by sub-division regulations which specifically require the developer to assume the full cost of hard surfaced road construction within the sub-division.

With the Roads Board intent on upgrading substantial mileage of unimproved roads already within the system, the Advisory Committee

recommends that the county strictly adhere to the acceptance of roads procedure adopted by the Commissioners in 1957. This, in effect, states that all roads built in sub-divisions must be dedicated to the county. To be accepted by the county, these same roads must be constructed to the standards established by the Commissioners with Resolution No. 35 in 1966. The Acceptance Procedure also clearly states that all costs of construction and hard surfacing of the new roads shall be at the expense of the developer or petitioners. Of course, the county will assume the costs of maintenance responsibilities once the road has been accepted into the county system.

In order to eliminate any "gray" areas with regard to road construction obligations, the Committee recommends that, without exception, no private roads serving more than one residence shall be permitted in any sub-division. The Committee is of collective opinion that in no case is there justification for county taxpayers to assume the cost of construction of roads within a sub-division.

In the cases of older sub-divisions where it may be impractical to hold a developer accountable for road construction costs, we recommend that whenever petitioners controlling two-thirds of the front footage of the private road in question commit themselves to a front foot county assessment which fully covers construction costs of drainage, base preparation and hard surface to county specifications, the county roads board should accept the road into the system and improve it to county standards. In such cases, engineering advice available to the roads board should be the sole criteria in determining the extent and cost of improving a road to minimum county standards. The Committee recommends that a procedure be established to fully advise purchasers of sub-division home sites that the County Roads Board will not build or hard-surface existing private sub-division roads at county expense.

5. Equipment Replacement

The Committee has reviewed the operation, maintenance and repair of over eighty pieces of mobile equipment. We find that costs in operation and maintenance do not appear excessive and that repair costs are well below normal expectations. Much of this saving is due to the efficiency of a well-run central shop. However, we are concerned that there is no long range plan for replacement of extensively used equipment. We recommend that such a plan be developed and that a specific reserve, or sinking fund, for this purpose be started out of operating funds. This will permit the roads board to anticipate and plan for expensive equipment replacement in a more orderly and business-like manner.

6. Employee Salary and Benefits

The Committee commends the Roads Board for its recent decision to have appropriate specialists conduct a job survey of all employees. This has made possible the preparation of accurate job descriptions and the establishment of more equitable salary scales. We also commend action by the Board which has resulted in the implementation of retirement plans and other fringe benefits which are comparable and consistent for all employees. These changes, coupled with the more extensive use of other personnel management techniques should help develop employee morale, attitudes and performance to an even higher level.

All members of the Advisory Committee have appreciated the opportunity extended by the County Commissioners to serve on this assignment. Our own knowledge of the many procedures and problems related to the operations of the county roads system has been expanded tremendously. As the result of this study, we ask that the Commissioners respectfully consider and favorably act on the several recommendations incorporated in this report.

SECTION 22-5 VARIANCES

22-5.01. The Board of Zoning Appeals shall have the power to authorize upon appeal in specific cases such variance from the terms of this Ordinance as will not be contrary to the public interest where, owing to special conditions, a literal enforcement of the provisions of this Ordinance would result in unnecessary and undue hardship. A variance shall be authorized only for yard requirements and setbacks; size of signs; or the height, area and bulk of structures.

22-5.02. Under no circumstances shall the Board grant a variance to allow a use not permitted under the terms of this Ordinance in the zoning district involved, or any use expressly or by implication prohibited by the terms of this Ordinance in said zoning district. No non-conforming use of neighboring lands, structures, or buildings in the same district, and no permitted use of lands, structures, or buildings in any other district shall be considered grounds for the granting of a variance.

22-5.03. A variance from the terms of this Ordinance shall not be considered by the Board unless and until:

- (1) A written petition for a variance is submitted by the applicant.
- (2) The Board has held a duly noticed public hearing.
- (3) The Board has made the following written findings:
 - (a) That strict application of the Ordinance would produce unnecessary and undue hardship;
 - (b) That such hardship is the result of special conditions and circumstances not generally shared by other properties in the same zoning district or vicinity, and which are peculiar to the land, structure or building involved;
 - (c) That the special conditions or circumstances do not result from the actions of the applicant; and
 - (d) That the granting of the variance will be in harmony with the general purpose and intent of this Ordinance, and will not be injurious to adjacent property, the character of the neighborhood or the public welfare.

22-5.4. In granting any variance, the Board may prescribe appropriate conditions and safeguards in conformity with this Ordinance. Viola-

tion of such conditions and safeguards, when made a part of the terms under which the variance is granted, shall be deemed a violation of this Ordinance and punishable under Article 27 of this Ordinance.

22-5.05. No variance shall be authorized by the Board unless it finds that the condition or situation of the property concerned or the intended use of the property is not of so general or recurring a nature as to make practicable a general amendment to the Ordinance.

Whereas, "County" recognizes a special duty on the part of a governmental body to refund monies obtained, though the monies were obtained by mistake of fact committed by "Solo" and though "County" exercised good faith in all dealings with "Solo" as "County" is bound by an obligation to do justice and has not been injured or damaged or suffered any loss as the result of the negligent mistake committed by "Solo", and

Whereas, "County" has placed said money when received from escrowee, Maryland National Bank, in a special interest drawing account and by agreement of the parties wishes to use the accumulated interest to defer all court costs and attorney's fees incurred by said "County" as a result of the mistake of "Solo", and

Whereas, the individual members of the Caroline County Commissioners wish to receive the normal assurances of personal protection necessary to any indemnification agreement involving a public body, all parties agree of hereinafter provided,

III. Indemnity of Commissioners Individually. "Solo" shall at all times hereafter indemnify A. Curtis Andrew, individually, Earl R. Bell, individually, and Rachel Collison, individually, against all actions, proceedings, claims, and demands by reason of the delivery of the sum of \$141,033.34, and against all costs, damages, or expenses which A. IV. Release. In consideration of the sum of \$141,033.34, receipt of which is acknowledged, "Solo" releases and forever discharges the County Commissioners of Caroline County for all claims, demands, and causes of action that releasor may now have or that might subsequently accrue to releasor arising out of or connected with, directly or indirectly, have certain complaint filed in the action entitled "Solo" Cup Company, plaintiff vs. County Commissioners of Caroline County, defendant, " Law Action #3786 pending in the Caroline County Circuit Court. This release includes, but is not limited to, all claims and actions that releasor may have or that might subsequently accrue against the interest fund accumulated by said "County" on the aforescribed sum. In Witness Whereof, the parties have signed this Agreement and Release on the year and day first above written.

Wayne D. Clark, resident and property owner on Wilhelm Road, appeared before the Commissioners to reiterate his request for a nuisance ordinance to protect the county from irresponsible property owners. He also reported that some progress has been made in the matter which caused area residents to present a petition for a nuisance ordinance at the Commissioners meeting of April 25, 1978. The Commissioners consented to give consideration to the matter, and Zoning Administrator Carl Thornton stated that he would report on actions taken by other counties.

Miss Collison made a motion, seconded by Mr. Bell to send a letter to George B. Rasin, Jr., Chief Judge, stating that the Commissioners will consider including an allocation in the budget in the amount of \$100. per month for the services of a law librarian. The motion carried.

By unanimous consent, the Commissioners granted permission to Alan Visintainer, county planner, to advertize a public hearing to be held on June 6, 1978, at 10 A.M. for the annual review of Caroline Solid Wastes Management Plan.

Mr. Visintainer presented a drawing of proposed improvements to the intersection of Second and Market Streets in Denton, to be funded by a grant through the highway safety program. He stated that the Commissioners of Denton are seeking the endorsement of the County Commissioners on the grant application. The County Commissioners requested that more information be supplied to them for further evaluation.

The Commissioners, by unanimous consent, agreed to have action taken with the State Department of Health and Mental Hygiene officially placed on record. A letter was sent to Irwin H. Desser on May 1, 1978 stating that the Commissioners wish to establish a mutually agreed upon "reasonable fee" for court-ordered evaluations performed by State mental hospital centers.

The Commissioners then met in executive session to review personnel matters, as authorized by Article 76A, Section 11(A)(1) of the "Annotated Code."

Upon a motion made by Miss Collison, seconded by Mr. Bell, and unanimously carried, it was decided to approve an application for a continuing contract whereby the Office of the State's Attorney for Caroline County will act as legal representation in the Title 4D program for the Department of Human Resources for the State of Maryland.

Minutes of the regular meeting of Tuesday, May 2, 1978 were approved. Vouchers 4899 - 5042 were approved for payment.

Mary Frazier, Caroline County recreation leader, met with the Commissioners to discuss a proposed grant application to be submitted by the Board of Recreation and Parks to the Eastern Shore Continuum of Care Team for 4 summer recreational field trips for mentally retarded children of Caroline County. The trips will be provided at no cost to the county. On a motion by Miss Collison, seconded by Mr. Bell, the grant application was unanimously approved.

Merle Wilhelm, resident of Trice Road, requested that the Commissioners consider amending the Caroline County Zoning Ordinance to permit custom sawing, by special use exception, in areas designated "R" Rural. On April 26, 1978, Mr. Wilhelm presented to the Planning and Zoning Commission a petition signed by neighboring residents which states that they have no objection to the establishment of a sawmill in their area. Zoning Administrator Carl Thornton told the Commissioners that the Planning and Zoning Commission will discuss amendment of the ordinance on May 10, 1978. By unanimous consent the Commissioners decided to defer decision until a recommendation from the Planning and Zoning Commission is brought before them.

County Planner Alan Visintainer and Zoning Administrator Carl Thornton, reported on proceedings of the Agricultural Land Preservation Committee. The committee has reached a consensus that changes should be made in the county's Zoning and Sub-division Ordinances that would: (1) slow down the rate of development and, therefore, the rate of agricultural land conversion, and (2) guide this development to more appropriate areas of the county, such as near existing towns. Further specific recommendations were also made. The Commissioners directed the report to the Planning and Zoning Commission for further evaluation.

Bids for materials to be used in public restroom construction were opened at 10 a.m. Although bids were solicited for both masonry products and lumber products, only the following bids for lumber products were received:

E. S. Adkins, & Co.	\$1,043.70
Nuttle Lumber Co.	\$ 409.64

Miss Collison moved to accept the low bid submitted by Nuttle Lumber Co. The motion was seconded by Mr. Bell and unanimously carried. Miss Collison then moved that Jim Scrivnor proceed with telephone solicitation in order to obtain the best offer for masonry products. The motion was seconded by Mr. Bell and unanimously carried.

Mr. Visintainer presented a 10-year lease with Haines B. Holt for the old Denton Road trash collection site. The lease was signed by President Andrew.

Mr. Visintainer then presented a resolution, which follows, pertaining to proposed annexation and rezoning in the Town of Greensboro. Miss Collison moved to adopt the resolution. The motion was seconded by Mr. Bell and unanimously carried.

WHEREAS, the lands to be annexed are presently zoned as R-1, Single-Family Residential by Caroline County; and

WHEREAS, the Town of Greensboro has proposed to rezone said lands to R-2, Residential, to allow medium density development; and

WHEREAS, the Caroline County Comprehensive Plan identifies the future use of said lands as for Residential Low Density; and

WHEREAS, Article 23A, Section 9(c) provides that no municipality may, for a period of five years following annexation, place the land to be annexed in a zoning classification which permits a land use substantially different from the use of the land specified in the current and duly adopted County Master Plan, without the express approval of the County Commissioners; and

WHEREAS, the proposed annexation and rezoning have been reviewed and favorably endorsed by the Caroline County Planning and Zoning Commission.

NOW, THEREFORE, BE IT RESOLVED by the Commissioners of Caroline County, Maryland, that the proposed annexation and rezoning as described in this Resolution is favorably endorsed as required under Article 23A, Section 9(c).

A follow-up report on proposed improvements to the intersection of Second and Market Streets, Denton, was given by Mr. Visintainer. The Town of Denton is filing for a highway safety program grant in the amount of \$20,000. to provide funds for the project. The Town is also requesting that the county share local costs, with each government paying \$3,000. The Commissioners responded that they would prefer, instead, to supply services in the form of CETA personnel. Their sentiments will be conveyed to the town commissioners.

Mr. Visintainer mentioned that he had received a query from Frank Adams of the Federalsburg Economic Development Commission on the status of their request for a loan application for the construction of a shell building in the Federalsburg Industrial Park. Although Miss Collison has no objection to the project, Mr. Bell and Mr. Andrew feel that further evaluation is necessary.

On a motion made by Miss Collison and seconded by Mr. Bell, it was unanimously decided to amend the Commissioners' Minutes dated February 21, 1978, on page 249 by including the following, which was inadvertently omitted:

By unanimous consent, the Commissioners decided to request that Connecticut General Life Insurance Company make 2 changes in the County Commissioners of Caroline County Retirement Income Plan, Contract No. GR-2473, namely:

- (2) Eligibility for benefits under the Pension Plan to be limited to regular full time employees and to regular part-time employees who work an average of 1,000 hours per year and/or earn \$5,000 or more per year.

President Andrew signed the recently adopted Personnel Ordinance.

They were unanimously approved for appointment.

The Commissioners then met in executive session to review personnel matters, and to discuss financial transactions, as authorized by Article 76A, Section 11(A)(1) of the "Annotated Code."

The Commissioners unanimously reappointed Eugene Racz as member of the Planning and Zoning Commission. His term will expire in April 1983. The appointment of W. A. Stewart Wright, Jr., as alternate to the Board of Zoning Appeals until May 9, 1981 was also approved.

Miss Collison moved that the following resolution be adopted. The motion was seconded by Mr. Bell and unanimously carried.

Dear Commissioners:

This letter is to express the community feelings on the front page story of the September 26 issue of the Star Democrat in regard to and amphitheater and other enterprises located on the corner of Statum Road and American Corner Road.

It is the feelings of the area residents and property owners that these types of ventures do not conform to the nature of the area.

We, the concerned citizens, feel that the area cannot handle the needs of 2,000 to 3,000 participants. For example, the road systems in our area cannot handle these types of ventures.

We also are extremely concerned for the safety and protection of our property but most important for our families. There are many other areas of concern to us such as trash removal, sanitation, noise pollution and total environmental change of the area.

We sincerely hope you can see our objection and will use your descretion in supporting we, the citizens of Caroline County, in our opposition to these proposed area changes.

The Commissioners met at 9:30 a.m.

Present: A. Curtis Andrew, Pres.

 Edwin G. Richards, Co. Adm.

Minutes of the regular meeting of October 31, 1978 were approved. Vouchers 6250-6309 were approved for payment. Youth Commission payroll checks 63-69 were approved for payment.

James Hannawald, district conservationist, presented for the Commissioners' examination a petition requesting the appointment of a board of drainage viewers for a proposed public drainage association to be known as Twiford Meadow P.D.A. By unanimous consent, the Commissioners appointed the following persons, contingent upon their acceptance, to serve as the Twiford Meadow Board of Drainage Viewers: Norris Collins, Laverne Bullock, Dennis Nagel, Dale Reagan, Kenneth Fishell.

The Commissioners unanimously approved and signed an operation and maintenance agreement with Edinburg Public Drainage Association and Additions to Edinburg Public Drainage Association, for twenty-five percent cost-share on mowing maintenance.

The following contingency fund resolutions were unanimously approved:

- \$199. - Racz Refuse, Inc. - container service at boat ramps for month of October
- \$360. - W. Irvin Cousins - investigation into status of bond and coupon bank account at Peoples Bank
- \$113. - Kent, Ogletree and Thornton - legal services rendered to the Department of Social Services

Upon a motion made by Mr. Bell, and seconded by Miss Collison, it was decided to accept the bid of Smith Ford, Inc. in the amount of \$5,748.53 for a 1978 Ford LTD II 4-door sedan equipped with a 302 cubic inch V8 police package, proposal #CC-SD-3-10-78. This was the only bid received.

In regard to a request for reimbursement of lawyer's fees presented at the previous Commissioners' meeting by Charles E. Carey, Administrator Richards reported that although he had investigated the records of the assessment office and found an error, he felt that final responsibility for Mr. Carey's predicament should be assumed by the lawyer who carried out the title search. Mr. Richards therefore recommended that no action be taken on Mr. Carey's request, and the Commissioners assented.

Upon a motion made by Miss Collison and seconded by Mr. Bell, it was decided to approve an adjustment to the FY '79 Chesapeake College budget which increases nonresident revenue (FTE from 54 to 80) and authorizes additional expenditures to \$67,100. The adjustment will have no effect on the Caroline County allocation to the college.

The Commissioners signed Abatement or Deduction From Tax Roll Forms no. 993-1015, and Increase or Addition to Tax Roll Forms nos. 613-621.

Upon a motion made by Mr. Bell and seconded by Miss Collison, it was decided to abate the County taxes for fiscal year 1978-79 for the Community Civic League of Federalsburg, Inc.

The Commissioners unanimously approved and signed final inspection statements for Hog Lot and Diggins Roads, EDA project #01-51-20924.

Administrator Richards then discussed with the Commissioners a matter pertaining to health department expenditures: Since closing the books for FY '78, the County has received a number of invoices and communications from the State Department of Mental Hygiene which will require that the County issue checks to the State for expenditures going as far back as 1973. With the exception of one invoice for unreported collections for FY '73-77 (per audit report), all expenditures appear to be appropriate and proper. Mr. Richards therefore proposed that the Commissioners authorize the opening of a new account in the FY '79 budget in order that the invoices in the amount of \$33,149.68 (excepting the above-named invoice) may be entered as expenditures from that account. This would then be explained by an auditor's footnote in the FY '79 statement, and would be easier than reopening books back to the appropriate fiscal year. The Commissioners unanimously authorized the opening of such a new account, and also authorized Administrator Richards to send a letter to Irvin Krieger, chief of audit operations, in regard to the excepted invoice.

There being no further business, the meeting was adjourned.

Through the agreement, veterans will be referred to the County for consideration for these positions, and costs of the positions (salary, fringe benefits) will be paid for 6 weeks in the event that a veteran is hired.

Upon a motion made by Miss Collison and seconded by Mr. Bell, the Commissioners unanimously declared their intent to enter into a loan agreement in the amount of \$250,000. to provide interim construction financing for the proposed addition to the Caroline County Nursing Home. Payment of interest on the loan will be the responsibility of the nursing home; however, by virtue of the proposed loan

agreement, they will have the advantage of paying a much lower interest rate.

The Commissioners unanimously authorized the closing of the following greenbox sites on November 30, 1978: Greensboro dump (Sunset Avenue), Oakland, Ninetown Road. The Holly Road collection site will serve these 3 areas.

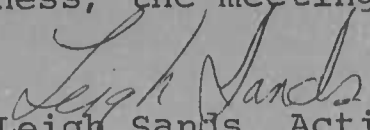

At 10 a.m., as advertised, the Commissioners held a public hearing on a proposed amendment to the existing trailer park tax resolution. County Treasurer William Cole briefly reviewed for the Commissioners and for those in attendance the reasons necessitating an amendment. Upon a motion made by Mr. Bell and seconded by Miss Collison, the Commissioners unanimously declared their intent to amend the existing trailer park tax resolution to change the manner of collection. The new method of taxation will entail charging a flat rate of \$5. per month per occupied mobile home.

Administrator Richards reported to the Commissioners that a complaint had been received from Gadow's Turkey Farm on Gadow Road pertaining to killing of turkeys by dogs. Mr. Richards will keep the Commissioners informed on the processing of this complaint.

Ms. Evans briefly described the purpose and procedures of her office in helping local governments to ascertain their energy problems and needs, and to procure federal funding for development of energy management programs.

With the approval of Miss Collison and Mr. Bell, President Andrew provided the signature of authority on 4 copies of the Third Party Contract with the Maryland Department of State Planning for the current Comprehensive Planning Assistance Project No. Md. The Commissioners reviewed a letter from William C. Cooper, president of the Caroline County Firemen's Association, which states that the 1978 project application for a new radio base station for the Greensboro Volunteer Fire Company as submitted by the Caroline County Civil Defense Agency had to be resubmitted for 1979 because of lack of funds of the Federal Civil Defense Agency. Miss Collison made a motion, as requested by Mr. Cooper, to authorize the purchase of 1 used radio base from Talbot County Fire Control to be converted to Caroline County frequency and used as a spare until the project application is approved, purchase and conversion expenditures not to exceed \$500. The motion was seconded by Mr. Bell and unanimously carried.

In response to a request from the State Manpower Planning Office, the Commissioners unanimously recommended the names of the following persons representing industry and the business community for appointment to the Private Industries Council which was recently created under the authority of CETA Title VII: Kay Cooper, Solo Cup, Federalsburg; Lee D. McMahan, Tri-Gas and Oil Co., Inc., Federalsburg; Phillip Reed, Mulholland Harper, Inc., Denton; Ruth M. Chambers, Choptank Electric Cooperative, Denton.

Upon a motion made by Mr. Bell, and seconded by Miss Collison, it was unanimously decided to approve a grant application to be submitted to the Maryland Governor's Commission on Law Enforcement and the Administration of Justice to secure federal funds for the employment of a full-time assistant state's attorney-investigator for Caroline County. President Andrew provided the signature of authority. Funds are available for a starting date of January 1, 1979, and the project will be renewable annually by the County for up to 3 years.

COUNTY COMMISSIONERS OF CAROLINE COUNTY

Leigh Sands, Clerk (s)

Thomas C. Eveland, (s)

Harvey Fleetwood (s)

Charles T. Dean, Sr. (s)

After due consideration, and upon a motion made by Mr. Dean, and seconded by Mr. Fleetwood, it was unanimously decided to approve the following rezoning application, previously recommended for approval by the Planning and Zoning Commission:

Rezoning Application #7810B - A request by Wright's Building Supplies, Inc., to rezone 2.389 acres from R-Rural to I-1 Limited Industrial with said acreage being located on the south side of Hobbs Road, east of Denton and in the Third Election District of Caroline County.

County Planner Alan Visintainer then provided the Commissioners with a report on the status of agricultural land preservation efforts in Caroline County in 2 major areas, zoning and subdivision controls, and the Maryland Agricultural Land Preservation Program. Mr. Visintainer identified the haphazard mushrooming of subdivisions far from existing towns as one of the most crucial factors in Caroline County's growth. Providing such scattered developments with public facilities and other services will become increasingly costly, and in order that this and other undesirable side effects be avoided, Mr. Visintainer recommended that the County's Zoning Ordinance be rewritten, and that the County Commissioners bring Caroline into the Maryland Land Agricultural Program by appointing a 5-member Advisory Board.

Upon a motion made by Mr. Fleetwood and seconded by Mr. Dean, it was unanimously agreed to appoint a Children's Council in Caroline County, as a part of the Maryland Office for Children and Youth, and as mandated by the Governor. It will be the responsibility of the Children's Council to examine programs, services, and plans for children under the age of 18 in their jurisdictions for the purpose of identifying duplications, or inefficiencies, effectiveness of programs, resources, and unmet needs.

By unanimous consent, the Commissioners appointed Neva Hutt, private citizen, as a member of the Children's Council and the County representative to the State Advisory Committee.

Upon a motion made by Mr. Dean and seconded by Mr. Fleetwood, it was unanimously decided to approve and sign CETA Title VI Amendments to change a position title and salary from teacher to teacher's aide.

By unanimous consent, the Commissioners voted to extend the filing deadline for the property tax credit program in order to approve the late application of Mr. and Mrs. Harry Seward of Maryland. The application will be submitted to the Assessment Office for computation of total tax credit.

Upon a motion made by Mr. Fleetwood and seconded by Mr. Dean, it was unanimously decided to appoint an investigative committee for the November 7, 1978 complaint submitted by Mr. and Mrs. Frederick Gadow pertaining to turkeys killed by dogs; and to authorize Sheriff Andrew to investigate the November 21, 1978 complaint submitted by Ralph Werner pertaining to chickens killed by dogs.

The Commissioners unanimously approved and signed 2 applications for membership and electric service from Choptank Electric Cooperative, Inc. for the Laurel Grove dump station and for the Holly Road landfill.

By unanimous consent, the Commissioners approved the new maintenance contract with Talbot Communications, Inc. (Talcom), for 1 base station and 6 assorted mobile units at the Caroline County Sheriff's Office to be serviced for the total monthly fee of \$59.00. President Eveland provided the signature of authority.

The Commissioners unanimously appointed Roland C. Kent as county attorney.

The Commissioners unanimously appointed Leigh Sands as clerk to the County Commissioners.

Minutes of the previous regular meeting of December 19, 1978 were approved. Vouchers 6637 - 6688 were approved for payment. Payroll checks 10471 - 10601 were approved for payment.

Ralph Schulke, resident of Dorchester County, appeared before the Commissioners to protest against a hog shed and lagoon presently under construction at Nagel and Richardson Roads. Mr. Schulke, who owns property adjacent to the construction, spoke for himself and on behalf of other concerned area residents. Although Mr. Schulke raised an objection to the siting of the construction in proximity to his property line, Carl Thornton, zoning administrator, distributed copies of "Section 5-2. Use Regulations" of the Caroline County Zoning Ordinance, and established thereby that a violation does not exist. In response to Mr. Schulke's query about the possible creation of obnoxious odors, especially emanating from the lagoon, Mr. Thornton stated that he will obtain further information from the Soil Conservation Service, and report back to both the Commissioners and Mr. Schulke. John Rieck, environmental specialist with the Health Department who was also present at the meeting, suggested that the Health Department be involved in the initial planning of such endeavors in order to avoid later conflicts.

At 10 a.m., as advertised, the Commissioners conducted a bid opening for Mitchell Road construction, E.D.A. project #L-MD-01-51-20924. The following bids received were opened, read aloud, and recorded:

David A. Bramble, Inc. Chestertown, MD	-	\$ 85,500.00
George & Lynch, Inc. New Castle, DE	-	\$ 74,000.00
Seaford Construction Co., Inc. Dover, DE	-	\$ 85,000.00

The Commissioners have taken the bids under advisement.

Shortly after 10 a.m., the Commissioners conducted a bid opening, as advertised, for 1 1979 four-door subcompact sedan, bid proposal #CC-CC-12-26-78. The following bids received were opened, read aloud, and recorded:

Levi Chevrolet, Inc.	-	\$ 3,728.00 (Chevette)
Federalburg, MD		
Lewis Motor Co., Inc.	-	\$ 4,131.13 (Plymouth
Denton, MD		Horizon)

The Commissioners have taken the bids under advisement.

President Eveland then briefly recounted the events of Saturday, December 23, 1978, when a drowsing motorist drove his automobile through the Caroline County Health Center building at 411 Franklin Street, Denton. President Eveland stated that he was summoned to the scene of the accident at approximately 2 a.m. on Saturday in order to inspect the damage. Having been informed that the damage was extensive, President Eveland contacted J. D. Neal of the Nuttle Lumber Company, the only available source of help at that time, for the purpose of constructing a temporary restraint which would render the building safe from inclement weather and deter burglars. As of the morning of December 26, the building was again operational, the representative insurance companies had been contacted, and the arrival of the insurance adjustor was imminent.

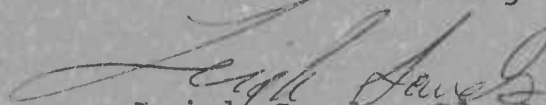

Because of the above-stated events, the Commissioners, by unanimous consent, declared an emergency to be in effect.

The Commissioners, by unanimous consent, authorized a letter to the director of Social Services which requests that the following names be added to the list of persons who are being considered for appointment to the Board of Social Services:

Ruth Mink - Federalburg
Sara Eash - Greensboro
James Berrigan - Denton
Betty Jane Kaufman - Denton

President Eveland mentioned to those in attendance that, with the possible assistance of the Caroline County Sheriff's Department, the scheduling conflicts on River Road between the county school buses and the Crouse Oil delivery trucks may soon be minimized.

There being no further business, the meeting was adjourned.

The Board of County Commissioners met at 9:30 a.m.

Present: Thomas C. Eveland, Pres.
Charles T. Dean, Sr.

Minutes of the previous regular meeting of December 26, 1978 were approved. Vouchers 6689 - 6716 were approved for payment.

James Hannawald, of the U. S. Department of Agriculture's Soil Conservation Service (SCS), appeared before the Commissioners at their request to answer questions pertaining to a lagoon waste disposal system designed by SCS for a proposed hog farm on property owned by C. Brooks Nagel on Nagel and Richardson Roads. Mr. Hannawald stated that the lagoon will have a capacity of 508,400 cubic feet, which will accomodate the waste material of 1000 hogs,

and that the facility will dilute every gallon of waste with 8 gallons of water. He further explained that the lagoon system is currently an acceptable means of handling animal waste, and that it is comparable to the municipal lagoons, except for the fact that the hog farm system will be anaerobic and septic, and therefore not completely odor-free. When the lagoon reaches capacity, the waste material will be pumped onto nearby cropland owned by Mr. Nagel; no discharge or wastewater run-off is allowed into any waters of the state. Mr. Nagel has obtained all the necessary State permits to begin operations, which, once underway, will be policed by the Department of Natural Resources. President Eveland concluded the discussion by informing Ralph Schulke, who had presented his objections to the hog farm at the previous Commissioner's meeting, that the Commissioners could not justifiably interfere with the construction of a legitimate farming operation. If an odor problem should develop, however, the County Health Department could take action.

Upon a motion made by Mr. Fleetwood, and seconded by Mr. Dean, it was unanimously resolved to pay from the contingency fund the sum of \$ 250. to James Owen Knotts, for a fee for services provided to the Department of Social Services for the quarter ending December 31, 1978.

Upon a motion made by Mr. Dean, and seconded by Mr. Fleetwood, it was unanimously agreed to designate Thomas C. Eveland as the elected official who will serve on the Delmarva Advisory Council for the duration of his elected term of office.

The Commissioners, by unanimous consent, authorized the Government Employees Insurance Company, Inc. (GEICO) to negotiate, and to enter into a contract (if GEICO so wishes) with the Nuttle Lumber Company, Inc. of Denton, for repairs to the Health Center building at 411 Franklin Street, Denton. The Commissioners generally agreed that County Attorney Roland Kent will monitor and report back on contractual negotiations between the 2 companies.

Upon a motion made by Mr. Dean, and seconded by Mr. Fleetwood, it was unanimously decided to accept the low bid of Levi Chevrolet, Inc., of Federalsburg, for one 1979 4-door sedan (Chevette) in the amount of \$ 3,728., bid proposal number CC-CC-12-26-78.

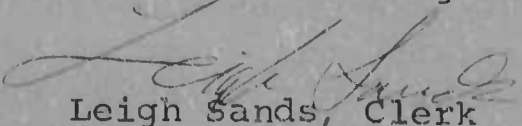

Zoning Administrator Carl Thornton briefly discussed the Caroline County "Minimum Standards Housing Ordinance", stating that, in the past, enforcement efforts have been sporadic at best, and only on request; and that creation of an appeals board, as mandated by the ordinance, was never accomplished. Mr. Thornton will submit for the Commissioners' examination a copy of the housing ordinance, and also fee guidelines and schedules for building permits, all of which, he stated, need to be evaluated and discussed at one of the next Commissioners' meetings.

As authorized by Article 76A, Section 11(a)(1) of the Annotated Code, the Commissioners, by unanimous consent, adjourned the meeting into closed session to discuss a personnel matter, as requested by County Administrator Edwin Richards.

In open session, Paul Shephard, planning director for Upper Shore Aging, Inc., presented for the Commissioners' review a program which would provide both winterization for the homes of the elderly citizens of Caroline County and on-the-job training for young adult work crews, with funding to be furnished through the CETA program and by the Maryland Office of Economic Opportunity. An outright County contribution is not required for participation. The Commissioners will examine the program in greater detail to determine if

it merits their support.

There being no further business, the meeting was adjourned.

Upon a motion made by Mr. Fleetwood, and seconded by Mr. Dean, the minutes of the previous regular meeting of January 2, 1979 were approved. Vouchers 6717 - 6774 were approved for payment. Payroll checks 10602 - 10718 were approved for payment.

President Eveland read aloud the following public statement pertaining to the Health Center building on Franklin Street, Denton. Copies were then distributed to the members of the press who were in attendance.

January 9, 1979

Because of the publicity that the Caroline County Health Center has received, we need to clarify the situation. As we all know, after the accident on the morning of December 23, 1978, we had to secure the building and do additional work to prevent further damage to the building and make it safe for personnel. This we did.

Because of the emergency of the situation, we intended to have the building repaired immediately, with the contractor working directly with the insurance company. Originally, our attorney believed that this procedure would be both legal and the fastest means of getting the building back into full operation. However, after checking with various sources, our attorney, on Friday, January 5, 1979, gave us (the Commissioners) the opinion that because of the way the Annotated Code of Maryland is written, we should advertise the repair work for bids for the protection of both the contractor and the County.

The Commissioners regret this change of procedure, but feel that we must protect all concerned.

In accordance with Section 31 of the Caroline County Code, the Commissioners, by unanimous consent, resolved to advertise for bids for repairs (by contract) to the Caroline County Health Center building on Franklin Street, Denton, proposal number CC-HD-1-30-79. A complete set of specifications and various bidding documents may be obtained from the office of the Zoning Administrator in the Court House. A pre-bid meeting will be held at 1:30 p.m. on January 22, 1979 at the construction site on Franklin Street. Bids will be opened and read aloud at 10 a.m. on January 30, 1979 at the regular meeting of the County Commissioners.

Alan Musselman, executive director of the Maryland Agricultural Land Preservation Foundation, presented the Commissioners with copies of the State statute which enumerates guidelines for the establishment of the Maryland Agricultural Land Preservation Program, created to curb urban sprawl and preserve agricultural land and wood land. Mr. Musselman reviewed the contents of the statute, emphasizing that participation in the program requires local governments to appoint agricultural preservation advisory boards for the purpose of disseminating information about the program and establishing agricultural preservation districts. The Commissioners will further review the guidelines, and will inform Mr. Musselman when action is taken to appoint a county advisory board.

Zoning Administrator Carl Thornton distributed copies of a 7-county survey of building permit rate schedules for the Commissioners' review. Mr. Thornton will discuss a revised rate schedule and method of operation at the next Commissioners' meeting.

County Planner Alan Visintainer reported that Acting Governor Blair Lee approved Denton's application for funding of an engineering study to determine the feasibility of extending public water service to the proposed Wesleyan health care facility.

Robert Cohee appeared before the Commissioners on behalf of the Caroline County Farm Bureau to invite their attendance at the regular Bureau meeting of March 13. The Commissioners thanked him, but said they will be unable to accept because of a prior commitment. Mr. Cohee told the Commissioners that they would be welcomed at any of the Bureau meetings, which are held on the second Tuesday of the month at 8 p.m. at the Soil Conservation building on Legion Road.

In response to a request from Ralph Schulke, who has attended the last 2 Commissioners' meetings to protest a proposed hog farm on Nagel Road, President Eveland said that he will contact County Sanitarian John Rieck as a means of expediting Mr. Schulke's complaint that an existing hog farm on Nagel Road is contaminating a nearby mill pond and streams.

****See top of page 337 for Zeigler appointment to Library Board**

Upon a motion made by Mr. Dean and seconded by Mr. Fleetwood, it was unanimously resolved to approve the following expenditures from the contingency fund:

\$ 199. - Racz Refuse, Inc. - container service at boat ramps

\$ 400. - John E. Boulais - pauper's funeral expenses for Betty Marie Brammer (not eligible for any other assistance)

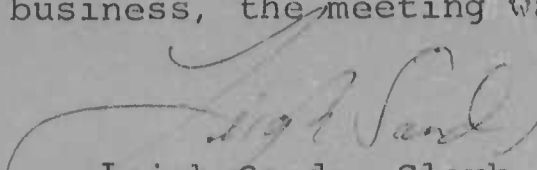

\$ 175. - Harold B. Plummer, M.D. - coroner's fees

The Commissioners unanimously approved and signed Caroline County Abatement or Deduction From Tax Roll forms 1026 - 1033; and Caroline County Increase or Addition to Tax Roll forms 633 - 639.

By unanimous consent, the Commissioners approved the request of President Eveland that he be designated as the fifth Caroline County representative on the Board of Trustees of Upper Shore Mental Health, Inc.

With the consent of Mr. Dean and Mr. Fleetwood, President Eveland provided the signature of authority on CETA Title VI and Title II contract amendments.

There being no further business, the meeting was adjourned.

** Upon a motion made by Mr. Dean, and seconded by Mr. Fleetwood, it was unanimously resolved to appoint Frank Zeigler, Jr., Ridgely to the Board of Library Trustees for Caroline County for a term of 5 years which will expire on January 1, 1983. Mr. Zeigler was recommended by the library trustees for appointment.

The Board of County Commissioners met at 9:30 a.m.

Present: Thomas C. Eveland, Pres.
Charles T. Dean, Sr.
Harvey Fleetwood
Edwin G. Richards, Co. Adm.

The County Commissioners graciously accepted from Board member Charles Dean a new cedar gavel for the Hearing Room. The gavel was made by Earl Flanigan, of Denton.

Upon a motion made by Mr. Fleetwood and seconded by Mr. Dean, the minutes of the previous regular meeting of January 9, 1979 were approved. Vouchers 6775 - 6800 were approved for payment. Youth Commission payroll checks 106 - 122 were approved for payment.

Sheriff Andrew appeared before the Commissioners to request permission to hire 2 correctional officer trainees as a part of the upgrading of the jail facility in anticipation of the new addition. The necessary budget provisions exist for the hiring of the trainees. Mr. Dean made a motion, seconded by Mr. Fleetwood, that the Sheriff be granted the authority to hire 2 correctional officer trainees to fill the personnel needs of the jail. The motion was unanimously carried.

James Hannawald, district conservationist, presented each Commissioner with a copy of "The Drainage Law of Maryland", and called to their attention the summary of procedures on the back page. He then requested that the Commissioners appoint the following persons who, contingent upon their acceptance, will serve as the Board of Drainage Viewers for Burnt Mill ditch: Milton Godfrey, Harold Weer, Lawrence Hignutt, Dawson Carroll, Edward Sparks. Upon a motion made by Mr. Dean and seconded by Mr. Fleetwood, the request for appointment was unanimously granted. Mr. Dean made a motion to authorize both the holding of a public hearing for Newport Meadow Public Drainage Association on February 27, 1979 at 1 p.m. in the Court House, and the necessary advertising for the hearing. The motion was seconded by Mr. Fleetwood, and unanimously carried.

County Planner Alan Visintainer presented for the Commissioners' examination 3 exterior architectural schemes prepared by Howard R. Greenhouse for the proposed county jail addition. President Eveland related that a 6-member architectural review committee had evaluated the schemes, with 3 members stating a preference for Scheme #1, which has an A-framed roof, and 3 members stating a preference for Scheme #3, which has a slightly sloped concrete roof. Mr. Visintainer explained that with the exception of the roofing style, the first and third schemes were very similar, both having the same interior arrangement, and exterior walls of brick. The advantages and disadvantages of completing the second floor were discussed, with Administrator Richards pointing out that the slowly evolving State concept of confining prisoners to local facilities could lead to the possibility of renting out a completed second floor to the State. President Eveland voiced a preference for Scheme #3; law enforcement officials thought it would be more secure, and neighboring residents and others thought the flatter roof would be less obtrusive, he said.

Mr. Dean and Mr. Fleetwood preferred Scheme #1, which they thought would be more compatible with nearby buildings. They specified, however, that the roof be constructed of slate, with which Administrator Richards concurred. The Commissioners generally agreed that cost would be an overriding factor in making their selection. Mr. Visintainer will further investigate the following: a cost estimate of Scheme #1, to include a slate roof, and roof area sprinkler system (if determined to be mandatory); a cost estimate of Scheme #3. At President Eveland's suggestion, the Commissioners will meet to evaluate the new data and arrive at a decision, in order that construction can begin. Administrator Richards closed the discussion by stating that Roger Redden, who is providing the bond counsel, will be consulting with Delegate Hargreaves in reference to legislation which will be submitted to raise the County's ceiling on borrowing to \$650,000.

Betsy Krempasky, coastal zone coordinator with the Maryland Environmental Service, briefed the Commissioners on the Maryland Used Oil Recycling program, and provided them with copies of the enabling legislation, which became effective on July 1, 1978. Ms. Krempasky explained that the program will attempt to limit the amount of used automotive oil being dumped into storm drains, sewers, on the ground, and into waterways by (a) informing the public of the needs and benefits of collecting and recycling programs (b) establishing centers throughout the state for deposit of used oil (c) imposing penalties for improper disposal of oil (as of January 1, 1979). She is currently encouraging gas station owners in different parts of the county to volunteer their businesses as used oil collection centers. The station owner may then realize a small profit by selling the collected oil to the oil companies. The program is essentially a low-budget one, with few administrative requirements.

The Commissioners then examined a list prepared by Betsy Krempasky of the nineteenth and twentieth century county records which she had recently discovered in the Court House attic. Upon a motion made by Mr. Dean and seconded by Mr. Fleetwood, it was unanimously decided to transfer the records to the Caroline County Historical Society Museum in Greensboro on a permanent loan basis for safekeeping and display. By unanimous consent, the Commissioners authorized a letter of notification to be sent to the Maryland Hall of Records, in the event that they want to microfilm the records before the transfer is accomplished.

Upon a motion made by President Eveland and seconded by Mr. Dean, it was unanimously resolved to reappoint Margaret Myers, Denton, as a member of the Board of Caroline County Department of Social Services to fill out the remainder of her unexpired term (June 30, 1980).

Upon a motion made by Mr. Fleetwood and seconded by Mr. Dean, it was unanimously decided to approved the Upper Shore Aging project entitled "Youth Winterization of Senior Citizens Homes", which will begin on January 20, 1979 and terminate on September 1, 1979. Mr. Fleetwood stated that he would like to be a member of the overseeing committee which will supervise the efforts of the work crew. His request was agreed to by President Eveland and Mr. Dean.

Upon a motion made by Mr. Dean and seconded by Mr. Fleetwood, it was unanimously resolved to establish a 5-member Caroline County Agricultural Land Preservation Advisory Board, to consist of the following persons: William H. Kleinwachter, Preston; Gary L. Schoonover, Greensboro; Frederick Hubbard, Federalsburg; Richard A. Edwards, Ridgely; Walter B. Steward, Greensboro.

With the consent of Mr. Dean and Mr. Fleetwood, President Eveland provided the signature of authority on a lease agreement dated January 19, 1979 with Phillip P. Felipe and Sonya B. Felipe, lessees, for premises located in Denton, more particularly described in a deed recorded in Liber 183, folio 267. Lessee shall have year-to-year tenancy commencing on September 29, 1978, with absolute right to renew annually for a period of 5 years from commencement date. During the 5-year period, lessee shall pay the sum of \$1. per year as rent to lessor.

As authorized by Article 76A, Section 11(a)(1) of the Annotated Code, the Commissioners, by unanimous consent, adjourned the meeting into closed session to discuss a personnel matter, as requested by Administrator Richards.

There being no further business the meeting was adjourned.

The Board of County Commissioners met at 9:30 a.m.

Present: Thomas C. Eveland, Pres.
Charles T. Dean, Sr.
Harvey Fleetwood
Edwin G. Richards, Co. Adm.

Upon a motion made by Mr. Fleetwood and seconded by Mr. Dean, the minutes of the previous regular meeting of January 16, 1979 were approved. Vouchers 6801 - 6861 were approved for payment. Payroll checks 10719 - 10844 were approved for payment.

Terenda Thomas, personnel supervisor, presented CETA amendment contracts for 2 existing special projects, drainage ditch clean-up, and solid waste conversion. Under the provisions of the contract, payment will be extended through September 1979. Mr. Dean moved that the contracts be renewed as presented. Following Mr. Fleetwood's second, President Eveland provided the signature of authority.

Upon a motion made by Mr. Dean and seconded by Mr. Fleetwood, the following persons were unanimously appointed (contingent upon their acceptance) to serve as a Board of Drainage Viewers for the Smith-Leslie Public Drainage Association: Richard Edwards, Hank Robinson, Lawrence Harris, Lawrence Hignutt.

William Brown, a Henderson area resident, appeared before the Commissioners to inquire about possible causes of action he might take to protect himself from the establishment of a hog farm which, he believes, is planned for the 35-acre farm property adjacent to his. Mr. Brown described the acreage as being narrow, low-lying, and trisected by drainage ditches, which factors, he felt, combined to render it unsuitable for a commercial hog farm. Since, he further stated, the present county "Zoning Ordinance" requires only that hog farm structures be placed at least 500 feet from the nearest dwelling, the ordinance was inadequate to safeguard the health and general welfare of rural property owners and their families. Mr. Brown pleaded with the Commissioners that the ordinance be reviewed and rewritten. County Agricultural Extension Agent Robert Rouse was then summoned before the Commissioners to discuss modern waste disposal methods for commercial hog operations. The Commissioners informed Mr. Brown that, while sympathetic to his problem, they had no legal authority to obstruct the construction of the hog farm. County Planner Alan Visintainer suggested that Mr. Brown contact the Water Resources

Administration in regard to design and permit processes. Zoning Administrator Carl Thornton stated that he would notify Mr. Brown of the next meeting of the County Planning Commission, in the event he would want to present his opinions to them.

Upon a motion made by Mr. Dean and seconded by Mr. Fleetwood, the following contingency fund expenditure was unanimously approved:

\$383.08 - to Health Department for Child Life program of Department of Health and Mental Hygiene (purchase of durable toys and storage cabinets for use at clinics).

Upon a motion made by Mr. Dean and seconded by Mr. Fleetwood, the following contingency fund expenditure was unanimously approved:

\$690.00 - to Frampton-Hawkins Funeral Home for funeral expenses of Marvin A. Mitchell family. (The total bill was \$1,200.; Social Security death benefits paid the difference.)

Upon a motion made by Mr. Dean and seconded by Mr. Fleetwood, the following contingency fund expenditure was unanimously approved:

\$4,916.51 - to Caroline County Roads Board for cost of surface treatment of roads and parking areas in Caroline 4-H and Youth Park (\$3,720.21 was reimbursed by Department of Natural Resources).

Planner Visintainer then discussed his recommendations for closing down the Holly Road landfill and shifting those operations to the existing County landfill on Hobbs Road. Such action, he said, would afford the County an approximate FY 1979-80 savings of \$20,000. Continuing to operate 2 landfills would, therefore, be economically unsound. The following factors influenced the selection of Hobbs Road over Holly Road as the single County landfill:

(1) Hobbs is more centrally located. (2) The investment in obtaining the state permit and performing upgrading at Hobbs can be recovered during the lease period. (3) Approximately two-thirds of the total trash volume now comes into Hobbs. Upon a motion made by Mr. Fleetwood, and seconded by Mr. Dean, the Commissioners unanimously resolved to close Holly Road landfill on February 24, 1979 as an economy measure, and further resolved to expand the hours of operation at the Hobbs Road Landfill, as follows: Monday-Friday, 7 a.m. to 5 p.m.; Saturday 7 a.m. to 4 p.m. The greenbox collection areas at the entrances to both landfills will continue to be open 7 days a week for household trash and garbage only. All other refuse, including commercial and business waste, large appliances and brush will be accepted at the Hobbs Road landfill during the regular operating hours listed above. The Holly Road landfill will be opened by appointment only for large quantities of land-clearing debris, tires or demolition rubble. A fee will be charged based on the costs of disposal.

By unanimous consent, the Commissioners approved the release of the annual County appropriation to Easton Memorial Hospital in the amount of \$1,000.

Planner Visintainer and Zoning Administrator Thornton presented for the Commissioners examination preliminary plats for subdivisions on Dukes and River Roads, and in an area between Melville Road and Route #311. These are the 2 largest subdivision plans to be submitted in some time, and would create 164 new housing lots. All the acreage involved is categorized as "A" agriculturally prime land.

Administrator Richards presented a new contract proposal from Wilmer's Communication, Inc. of Edgewater, Maryland for the continuing maintenance and service of the Caroline County Fire Board

radio system. The new contract includes all labor and parts necessary for routine maintenance of the system, at a total cost per month of \$507.50. Upon a motion made by Mr. Fleetwood and seconded by Mr. Dean, the Commissioners unanimously decided to advertise for other contract proposals before accepting an offer from Wilmer's.

As authorized by Article 76A, Section 11(a)(1) of the Annotated Code, the Commissioners, by unanimous consent, adjourned the meeting into closed session to discuss a personnel matter, as requested by Administrator Richards.

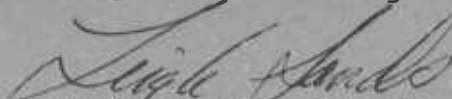

In open session, Administrator Richards submitted and discussed several charts which detailed the impact of assessment on commercial and agricultural properties from 1970-1979. The charts were prepared by Supervisor of Assessments, Charles Arnie.

Upon a motion made by President Eveland, and seconded by Mr. Dean, Clarence Kibler of Greensboro was unanimously appointed as chairman of the Caroline Commission on Aging. Mr. Kibler's term, which is retroactive to July 1, 1978, will expire on June 30, 1979.

The Commissioners read a letter from members of the Christ Episcopal Church Vestry which states that, in their evaluation, architectural schemes B and C (2 and 3) for the County jail addition are more aesthetically commendable, with plan C (3) being their overall preference.

Upon a motion made by Mr. Dean and seconded by Mr. Fleetwood, it was unanimously decided to investigate ordering copies of Governor Hughes' inaugural address, having the copies suitably framed, and placing one in each of the schools, in the public library and the Federalsburg Branch, and in the Commissioner's Hearing Room.

There being no further business, the meeting was adjourned.

Edgar Harman, one of the managers of the Tappahanna tax ditch, and James Hannawald, district supervisor with the Soil Conservation District, appeared before the Commissioners to request annual financial assistance in the amount of \$2-3,000 for the snagging of limbs and removal of other debris from the Upper Choptank River, which the Tappahanna and other tax ditches drain into. The managers have already expended approximately \$10,000. on such maintenance, and feel that an annual supplement will be necessary to continue the clean-up and prevent flooding. At the request of the Commissioners and of Administrator Richards, Mr. Hannawald and Jim Scrivnor, public works coordinator, will investigate the area and compile a report for the Commissioners' information.

Upon a motion made by Mr. Dean and seconded by Mr. Fleetwood, the following expenditure from the contingency fund was unanimously approved:

By unanimous consent, the Commissioners approved "Budget Transfers Between Functions - 9/16/78 to 1/17/79" which was submitted by the Chesapeake College Board of Trustees.

- WHEREAS, Many business decisions made by the county's farmers, as well as those who do business with them, depend heavily upon accurate benchmark data from the Census of Agriculture;
- NOW, THEREFORE, Be it resolved that the county's presiding officials urge all farm operators to fill out and return promptly the farm census questionnaires they have received in the mail and thus help to make the 1979 census the most successful in a series of 21 farm census counts which began in 1840.

Signed this 30th day of January, 1979.

CAROLINE COUNTY COMMISSIONERS

Thomas C. Eveland, President (s)
Charles T. Dean, Sr. (s)
Harvey Fleetwood (s)

Upon a motion made by Mr. Dean and seconded by Mr. Fleetwood, it was unanimously decided to designate Neva Hutt, contingent upon her acceptance, as the County representative to the International Year of the Child (IYC) luncheon to be held on February 22, 1979 at the Holiday Inn, Baltimore-Washington International Airport.

President Eveland reviewed a petition presented by concerned residents of the Marydel area who were requesting greater coverage by police within the area. Administrator Richards suggested the possibility of the State police jurisdictions implementing a better patrol schedule, or of sharing a trooper with Queen Anne's County and splitting the cost. The Commissioners will gather more information from the State Police, and will also reexamine the Police Services Study which was performed several years ago.

Upon a motion made by Mr. Dean, and seconded by Mr. Fleetwood, it was unanimously resolved to present on permanent loan to the Caroline County Historical Society the papers removed from the cornerstone of the old Denton School on Fourth Street; it was further resolved to return the cornerstone to the Board of Education to handle as they see fit. Note: The cornerstone was opened at 9 a.m. this morning on the Courthouse steps and the following items were removed from it:

The regularly scheduled meeting of February 20, 1979 was re-scheduled for today's date because of a 21-inch snowfall.

The meeting of the Board of County Commissioners convened at 9:40 a.m.

Present: Thomas C. Eveland, Pres.
Charles T. Dean, Sr.
Harvey Fleetwood
Edwin G. Richards, Co. Adm.

Upon a motion made by Mr. Dean and seconded by Mr. Fleetwood, the minutes of the previous regular meeting of February 13, 1979 were approved. Vouchers 6991 - 7021 were approved for payment. Payroll checks 10960 - 11082 were approved for payment.

Upon a motion made by Mr. Dean and seconded by Mr. Fleetwood, the following resolution pertaining to the Denton Study Area 201 Facility Plan was passed and duly adopted by the Commissioners:

RESOLUTION

WHEREAS, the Denton Study Area 201 Facility Plan includes areas adjacent to but outside of the corporate limits of the Town of Denton; and

WHEREAS, the County Commissioners of Caroline County are responsible for sewerage facilities in the unincorporated areas of Caroline County.

NOW, THEREFORE, BE IT RESOLVED that the County Commissioners of Caroline County, Maryland do hereby concur with and adopt the Denton Study Area 201 Facility Plan for the unincorporated areas of Caroline County as follows:

1. North Expansion Area - This area will continue to utilize on-site disposal systems for the foreseeable future. If future extension of sewer service is necessary, annexation into the Town of Denton is the preferred method.
2. Wesleyan Health Center - The preferred method of providing sewer service to the Wesleyan Health Center is through annexation into the Town of Denton. If annexation is not feasible, the County Commissioners will consider the formation of a County Sanitary District. In either event, all sewage shall be transported to the Town of Denton treatment facility.
3. Eastern Expansion Areas - The preferred method of providing sewer-service to these areas is through annexation into the Town of Denton.
4. West Denton - The County Commissioners see no immediate need for public sewer service to West Denton. In addition, such service would impose a heavy financial burden on the residents of the area. Therefore, West Denton will continue to utilize on-site disposal systems for the foreseeable future. However, if a future need arises due to environmental protection or public health considerations, changed economic conditions or the availability of additional grant assistance to individual homeowners, the Commissioners will evaluate the following options:
 - A. Construction of a gravity-type collection system, connection to the Denton system and the phased addition of another lagoon cell to the Denton treatment facility. Service would be provided through either annexation by Denton or formation of a county sanitary district.
